
Rules & Regulations

1. General Event Overview:

- Event Format:

Adventure Rally Raid

GPS navigation through varied terrain, including desert, mountain, and off-road trails. Track loaded before race start

Prologue based start classification

2. Categories:

M6: Twin engines - 650 cc to 1300 cc - minimum weight 160kg

M5:: Single cylinder - 650 cc and above - minimum weight 145kg

3. Modifications:

All motorcycles should be built for long-distance endurance. Safety modifications (crashbars, racks) are allowed and encouraged.

- Exhaust: Must meet noise regulations (typically below 98 dB). Baffles and noise restrictors may be required.

- Navigation Equipment: Riders must have a GPS devices

- Fuel Range: Motorcycles should have the ability to cover at least 150 km without refueling.

- Tires: Off-road or rally tires are required.

- Lighting & Safety Gear: Functional front and rear lights are mandatory, and riders must wear full gear; helmets, jackets/body armour, motocross boots (adv boots will be rejected), and any additional protective gear of their choice.

4. Rally Format & Navigation:

- Route Structure: 2 Stages with varied terrain (desert dunes, gravel, rocky trails). Navigation primarily via GPS, Regularity. Special Stages.

- GPS device: While phones will be allowed for the first edition we highly recommend using a dedicated GPS device

- Penalties: Time penalties for missing waypoints or bypassing sections. Additional penalties for exceeding speed limits in controlled zones.

5. Safety & Support:

- Mandatory Equipment:

- Tracking System: Each bike must carry a satellite tracking device provided by the organizer to ensure safety and monitor the race. Riders to carry mobile phones or radios.

- First-Aid Kit: Small personal first-aid kit, including a basic medical pack (bandages, pain relievers).

- Mandatory stops at Water Stations.

- Tools: There will be no external mechanical assistance except at the Bivouac; The rider is to carry tools for on the trail repairs.

6. Assistance:

- No outside assistance allowed during stages except in the designated bivouac or assistance zones.

- Riders must be self-sufficient and handle mechanical breakdowns themselves, except for designated mechanic support after stages.

Rules & Regulations

7. Stage Regulations:

- Start Order:

The Riders will start one at a time (estimated every 3 min), with start order determined by the prologue..

- Timing: Time for all sections, special stages and liaisons are tracked. Regularity mode.

- Speed Limits: Speed limits apply in specific zones (bivouac, refueling areas and liaisons). Exceeding limits leads to time penalties or disqualification.

- Bivouac Regulations:

- Designated rest and refueling areas.

Mechanical support allowed only in bivouac.

8. Environmental & Conduct Rules:

- Environmental Protection: Riders must respect the environment by sticking to marked routes, avoiding damage to wildlife or protected areas. Penalties for littering or environmental damage.

- Rider Conduct: Riders must respect local laws, event marshals, and other competitors. Aggressive behavior, unsafe overtakes, or endangering others will result in penalties or disqualification.

9. Penalties and Disqualifications:

- Missed Waypoints: Riders must pass through specific GPS waypoints. Missing a waypoint results in a time penalty.

- Outside Assistance: Receiving mechanical help during stages leads to time penalties or disqualification..

- Non-Compliance: Failing to adhere to bike specifications, safety equipment, or environmental rules will result in time penalties or disqualification.

10. Scoring System:

- Stage Timing: The cumulative time of all special stages determines overall ranking. Regularity applies

- Penalties: Added to the rider's total time.

11. Prizes and Recognition:

- Category Podium: First, second, and third places for all categories.

- Overall Podium: 1 winner

- Completion Award: Every finisher will receive a completion award.
